Proactive Parcel Tracking

Increase your seller rating and improve your customers shopping experience by providing choice at the checkout with our fully tracked parcel delivery services.

We manage the delivery journey of all your items from collection through to delivery, saving you time to focus on growing your business. Our network supports all sizes of customers from large retailers, eBay/Amazon sellers to small independent boutiques.

We provide you with a supportive account manager to see to your every need and one user-friendly IT interface that integrates seamlessly with your own delivery management system.

How you benefit

- **Single contact** – one contact, one invoice, reducing time and cost managing multiple carriers
- **Performance certainty** – we manage carrier performance to ensure peak resilience
- **Convenient** – reduce your supply chain with a single collection
- **Delivery assurance** – delivery notifications and features designed to increase first time delivery success
- **National coverage** – we collect and deliver nationwide across the UK
- **Fully supported** – dedicated account manager and implementation and integration support

How Parcelhub Tracked Services work

You label & prepare your items

We collect your items & take them to our nearest depot

We sort and transport your items to our carrier partners

Your items are then handed over to our carrier partner

Our carrier partner delivers the item to your customer

Our Range of Carriers

We have carefully selected the carriers that we work with to ensure we can offer our customers the broad range of specialist services they require to fulfil orders to the end recipient, creating an unbeatable offering.

Why Parcelhub?

Trusted by hundreds of companies worldwide, we take the hassle out of managing parcel deliveries nationally and internationally, all via one contact, one collection and one invoice, saving you time and money.

Working with us, you can access a broad range of carriers and delivery options from a single platform, integrate your eCommerce or order processing platform with ease, have all your items collected, sorted and handed over for final mile delivery through our national infrastructure, and minimize failed deliveries through our Proactive Tracking solution.
