

Part Tracked

Part tracked domestic and international parcel delivery services

National and global coverage

Item-level tracking up to delivery carrier

Scalable and resilient solution

Recognised Sales Platform Delivery Option

Enhance your customers shopping experience with our part-tracked delivery services.

An improvement on traditional postal services, these fully integrated solutions give you visibility of your packet and letterboxable items from despatch to carrier handover, all via our secure online portal.

Available nationally and internationally, these services are ideal for both small ecommerce businesses and large multi-channel retailers selling low value basket items. In addition, with the benefit of our personalised email communications, these services can help manage your consumer's delivery expectations throughout the delivery journey.

For international items, our centralised multi-carrier routing model provides service resilience, whilst our domestic solution is supported by advanced machine sortation technology.

How you benefit

- **Single contact** – one contact, one invoice, reducing time and cost managing multiple carriers
- **Performance certainty** – we manage carrier performance to ensure peak resilience
- **Convenient** – reduce your supply chain with a single collection
- **Operational ease** – minimum sortation requirements including no gateway sort for international items
- **Easy-to-use** – a system that integrates with your own barcoding with a range of integration options
- **National and global coverage** – we collect nationally and deliver UK and Internationally
- **Fully supported** – dedicated account manager, implementation and integration support
